

8th Annual

Scottsdale

# INTERVENTIONAL FORUM 2012

**New Location!**

**JW Marriott  
Desert Ridge  
Resort & Spa**

**FEBRUARY 16 –18, 2012**

**Fellows Course - Registration Fees Waived!**  
**NEW! One-Day Nurse / Technologist Symposium**

**Take Advantage of the Opportunity to View**

**LIVE CASES**

Satellite from Scottsdale Healthcare Hospital, Duke University Medical Center and PeaceHealth St. Joseph's Medical Center

**David G. Rizik, MD, FACC, FSCAI**  
Scottsdale Healthcare Hospitals  
Scottsdale, Arizona

**James B. Hermiller, MD, FACC, FSCAI**  
St. Vincent Heart Center of Indiana  
Indianapolis, Indiana

**Mark Reisman, MD, FACC, FSCAI**  
Swedish Medical Center  
Seattle Science Foundation  
Seattle, Washington

Arizona  
CHAPTER

*This activity is jointly sponsored by Global Education Group and Scottsdale Healthcare Foundation*

# Scottsdale INTERVENTIONAL FORUM 2012

## Symposium Overview

**Dear Colleague,**

What is the best way for physicians to update their knowledge in cardiovascular medicine, the medical discipline linked to the greatest technological evolution of the past two decades? Which other medical specialty has witnessed a similar metamorphosis in terms of the methods by which patients are diagnosed and definitely managed as the heart and vascular specialties? As in years past, the **2012 Scottsdale Interventional Forum** has been specifically designed to meet these challenges. Offering a comprehensive summary of the latest cardiovascular research, this two and a half day symposium provides all the tools necessary for practicing physicians to hone their diagnostic and treatment skills, presented by a world-class faculty.

In addition to reviewing the basic pathophysiologic mechanisms leading to heart and vascular disease, SIF 2012 will also focus on controversies in medicine, new imaging technologies, new pipeline devices and novel interventional therapies for patients who previously were considered “no option” patients. This is achieved through didactic lectures, challenging specialty workshops and reinforced by live case demonstrations. The highlight of these live cases is the question-and-answer sessions that follow, where attendees have direct access to a faculty, considered to be the foremost authorities in the field.

SIF 2012 will kick off with an in-depth review of what we have learned from cardiovascular device healing and how this may be relevant to patients being treated in the future for structural heart disorders, as well as other vascular diseases. Included in these opening sessions is a review of the pivotal trials of the last 12 months. This information will be further complimented by our live case demonstrations. Other facets to the live case discussions emphasize appropriate use issues, case selection, multimodality imaging (IVUS, OCT, NIR Spectroscopy) as well as the employment of invasive functional data such as FFR. These concepts are all integrated into the case discussions in order to devise the best patient treatment strategy.

The first day's sessions will also include a review of complex coronary interventions including multi-vessel disease and left main, treatment of CTOs and bifurcations, as well as a discussion of the role of radial arteriotomy as a “first choice” in percutaneous treatment. The opening day will conclude with a symposium presented by experts in the field of hemodynamic support.

The next two days will provide attendees the opportunity to enter the next interventional revolution as they receive an in-depth analysis of next generation devices and treatment strategies including structural heart disease (TAVI, Mitralclip, LAA Closure). These sessions will also incorporate other important future technologies including bioabsorbable scaffolds, drug-eluting balloons, carotid intervention and novel modalities which can predict who is at greatest risk for developing heart disease.

Day 2 will conclude with an Imaging Symposium providing a comprehensive review of the use of CTA and MRI in clinical practice. Finally, a very practical “How To” Session for the interventionalist covering all aspects of heart and vascular therapies is planned.

In summary, the primary focus of this three day Forum is to provide the participants an understanding of the practical application of new technologies while still emphasizing the latest scientific data on existing approaches to heart and vascular disease.

We look forward to your attendance and participation in the **2012 SIF Symposium!**

Sincerely,

**David G. Rizik, MD, FACC, FSCAI**  
Director, Division of  
Heart and Vascular Medicine  
Scottsdale Healthcare Hospitals  
Scottsdale, Arizona

**Mark Reisman, MD, FACC, FSCAI**  
Chief Scientific Officer  
Swedish Medical Center  
President, Board of Directors  
Seattle Science Foundation  
Seattle, Washington

**James B. Hermiller, MD, FACC, FSCAI**  
Director of Interventional Cardiology  
Director, Interventional  
Cardiology Fellowship  
St. Vincent Heart Center of Indiana  
Indianapolis, Indiana

# Invited Faculty

**Robert J. Applegate, MD, FACC, FSCAI**

Professor of Cardiology  
Director, Cardiac Cath Labs  
Wake Forest Baptist Medical Center  
Winston-Salem, North Carolina

**Bruce R. Brodie, MD, FACC**

Clinical Professor of Medicine  
UNC Teaching Program  
Moses Cone Heart and Vascular Center  
Greensboro, North Carolina

**Marco A. Costa, MD, PhD, FACC, FSCAI**

Director, Center for Research & Innovation  
Director of Interventional Cardiovascular Center  
University Hospital Case Medical Center  
Cleveland, Ohio

**David A. Cox, MD, FACC, FSCAI**

Director, Interventional  
Cardiology Research  
Associate Director, Cardiac Cath Lab  
Lehigh Valley Hospital  
Allentown, Pennsylvania

**Donald E. Cutlip, MD, FACC, FSCAI**

Chief, Cardiovascular Catheterization Lab  
Beth Israel Deaconess Medical Center  
Boston, Massachusetts

**Amish J. Desai, MD, FACC**

Interventional Cardiology  
and Cardiovascular Research  
Swedish Heart & Vascular Institute  
Seattle, Washington

**Douglas E. Drachman, MD, FACC, FSCAI**

Director, Cardiovascular Fellowship Program  
Massachusetts General Hospital  
Boston, Massachusetts

**Ted Feldman, MD, FESC, FACC, FSCAI**

Director, Cardiac Catheterization Laboratory  
Evanston Hospital  
Evanston, Illinois

**James A. Goldstein, MD, FACC, FSCAI**

Director of Research and Education  
Beaumont Health System  
Royal Oak, Michigan

**Michael B. Gotway, MD**

Radiologist  
Scottsdale Medical Imaging  
Scottsdale, Arizona

**William A. Gray, MD**

Associate Professor of Clinical Medicine  
Director of Endovascular Services  
New York Presbyterian Hospital/  
Columbia University Medical Center  
New York, New York

**Timothy D. Henry, MD, FACC, FSCAI**

Director of Research  
Minneapolis Heart Institute Foundation  
Minneapolis, Minnesota

**John McB. Hodgson, MD, FACC, FSCAI**

Chairman, Department of Cardiology  
Co-Director of Geisinger Heart Institute  
Pearsall Heart Hospital  
Wilkes-Barre, Pennsylvania

**David E. Kandzari, MD, FACC, FSCAI**

Director, Interventional Cardiology  
and Chief Scientific Officer  
Piedmont Heart Institute  
Atlanta, Georgia

**Samir Kapadia, MD, FACC, FSCAI**

Director, Sones Cardiac Catheterization Labs  
Director, Interventional Cardiology Fellowship  
Cleveland Clinic  
Cleveland, Ohio

**Morton J. Kern, MD, FACC, FSCAI**

Professor of Medicine  
Chief Cardiology, Long Beach VA Hospital  
Associate Chief Cardiology  
University of California Irvine  
Orange, California

**Kevin J. Klassen, MD, FACC**

Director of Patient Services  
Scottsdale Healthcare Hospitals  
Scottsdale, Arizona

**Michael A. Kutcher, MD, FACC, FSCAI**

Professor of Internal Medicine  
Director Interventional Cardiology  
Wake Forest School of Medicine  
Winston-Salem, North Carolina

**John R. Lesser, MD, FACC, FSCAI**

Director, Cardiovascular CT & MRI  
Minneapolis Heart Institute  
Abbott Northwestern Hospital  
Minneapolis, Minnesota

**William L. Lombardi, MD, FACC, FSCAI**

Medical Director of Cardiac  
Catheterization Laboratories  
PeaceHealth St. Joseph's Medical Center  
Bellingham, Washington

**Ashish Pershad, MD, FACC, FSCAI**

Interventional Cardiologist  
Heart and Vascular Center of Arizona  
Phoenix, Arizona

**Sunil V. Rao, MD, FACC, FSCAI**

Assistant Professor of Medicine  
Duke University Medical Center  
Director, Cardiac Cath Lab  
Durham VA Medical Center  
Durham, North Carolina

**Robert S. Schwartz, MD, FACC, FAHA, FSCAI**

Medical Director  
Minneapolis Heart Institute and Foundation  
Minneapolis, Minnesota

**Maulik Shah, MD**

Interventional Cardiologist  
Scottsdale Healthcare Hospitals  
Scottsdale, Arizona

**Gregg W. Stone, MD, FACC, FSCAI**

Professor of Medicine  
Columbia University Medical Center  
Director of Cardiovascular  
Research and Education  
The Cardiovascular Research Foundation  
New York, New York

**Thomas D. Stuckey, MD, FACC, FSCAI**

Clinical Professor of Medicine  
UNC School of Medicine  
Lebauer Cardiovascular Research Foundation  
Moses Cone Heart and Vascular Center  
Greensboro, North Carolina

**George W. Vetrovec, MD, FACC, FSCAI**

Professor of Medicine  
Virginia Commonwealth University  
Richmond, Virginia

**Christopher J. White, MD, FACC, FAHA, FSCAI**

Professor of Medicine  
System Chairman for Cardiovascular Diseases  
Ochsner Medical Institutions  
New Orleans, Louisiana

**Steven J. Yakubov, MD, FACC, FSCAI**

Medical Director  
Ohio Health Research Institute  
Riverside Methodist Hospital  
Columbus, Ohio

**James P. Zidar, MD, FACC, FSCAI**

Professor of Medicine  
Rex Heart and Vascular Specialists  
Raleigh, North Carolina

# Symposium Information

## TARGET AUDIENCE

The 2012 Scottsdale Interventional Forum has been designed to meet the educational needs of Interventional and General Cardiologists, Vascular Surgeons, Interventional Radiologists, Cath Lab Nurses and Technicians other medical professionals who have an interest in heart and vascular medicine.

## OBJECTIVES

Upon completion of this CME activity, participants should be able to:

- Review advances both practical and technical to the treatment of simple and complex coronary artery disease.
- Distinguish between percutaneous and surgical treatment options when confronted by complex heart and vascular lesion subsets.
- Describe the evolving modalities for the treatment of valvular and structural heart disorders.
- Describe the recent pivotal randomized controlled trials in heart, vascular and structural heart disciplines.
- Identify interactive technological advances of the past year in everyday patient treatment scenarios, ultimately leading to enhanced patient outcome.

## PHYSICIAN CONTINUING EDUCATION *Accreditation*

Global Education Group is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Global Education Group designates this live activity for a maximum of *13.5 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## NURSING CONTINUING EDUCATION *CNA/ANCC*

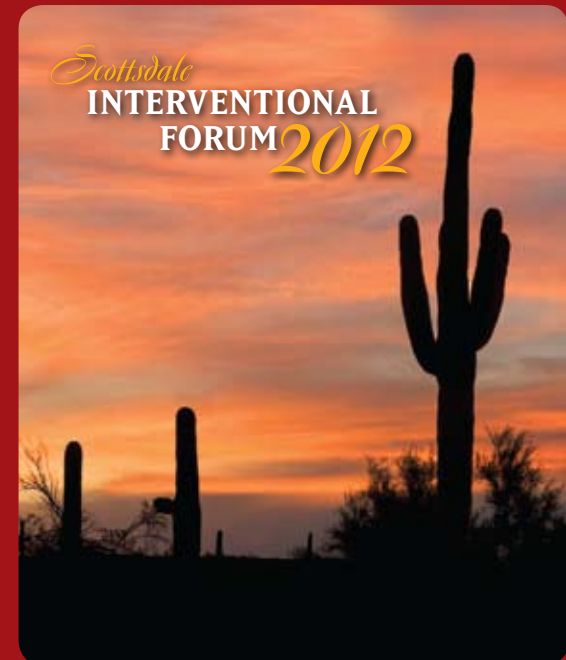

This educational activity for 13.5 contact hours is provided by Global Education Group. Global Education Group is an approved provider of continuing nursing education by the Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Nurses should claim only the credit commensurate with the extent of their participation in the activity. Application has been submitted to the American Society of Radiologic Technologists (ASRT) for certification. This activity is pending ASRT approval.

## INSTRUCTIONS TO RECEIVE CREDIT

In order to receive credit, participants must attend credit designated sessions, and must submit a completed application for credit at the conclusion of the Forum.

## DISCLOSURE OF CONFLICTS OF INTEREST

Global Education Group (Global) requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by Global for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

# Nurse / Technologist Symposium

## Wednesday, February 15th

### Course Description

Scottsdale Healthcare proudly introduces the First Annual Nurse / Technologist Symposium being held in conjunction with the 2012 Scottsdale Interventional Forum. The course will provide important facts and useful information for cardiovascular professionals. Didactic lectures and experiences by Scottsdale Healthcare Hospital nurses and technologists will cover leading topics such as Nursing Excellence, management of heart failure, the future of hospital reimbursement and others.

#### OBJECTIVES:

After completing this activity, learners should be better able to:

- Describe new technologies and devices such as IVUS and other Diagnostic Modalities.
- Identify the role of RNs in the cath lab and nursing excellence.
- Explain appropriate management of patients with heart failure.

#### ACCREDITATION: CNA/ANCC

This educational activity for 2.75 contact hours is provided by Global Education Group. Global Education Group is an approved provider of continuing nursing education by the Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Nurses should claim only the credit commensurate with the extent of their participation in the activity. Application has been submitted to the American Society of Radiologic Technologists (ASRT) for certification. This activity is pending ASRT approval.

### Agenda

- 8:00 am REGISTRATION / CONTINENTAL BREAKFAST**  
*JW Marriott Resort  
Wildflower Ballroom*
- 9:00 am Welcome / Program Overview**
- 9:20 am RNs in the Cath Lab**
- 9:40 am From Hospital to Home:  
The Patient with Heart Failure**
- 10:00 am How We Close**
- 10:20 am IVUS and other Diagnostic Modalities**
- 10:40 am BREAK**
- 11:00 am Wave of the Future:  
"Paid for Performance"**
- 11:20 am Nursing Excellence**
- 11:40 am Physiological Impact of Devices**
- 12:00 pm LUNCH**

### Impella Percutaneous Circulatory Education Workshop

**Supported by ABIOMED**

*JW Marriott Resort, Wildflower Ballroom*

- 1:00 pm History and Goals of Circulatory Support Systems (CSS)**
- 1:20 pm Effect of Support Devices on Hemodynamics**
- 1:40 pm Impella System**
  - Overview
  - System Components
  - System Fundamentals
  - Set-Up
  - Important Concepts: Purge, Position, Troubleshooting
- 2:20 pm Resources: Simulation Training Demo**
- 2:40 pm Weaning / Transfer to Braun**
- 3:00 pm Patient Care**
- 3:15 pm BREAK**
- 3:30 pm Hands-On**
- 4:30 pm Review – Test - Evaluation**
- 4:45 pm Closing Remarks / Conclusion**
- 5:00 pm Wine & Cheese Reception**  
*Wildflower Terrace*

*Not certified for credit*

*\*All breaks, meals and receptions are not certified for credit*

# General Session Agenda

## Thursday, February 16th

### Management of Complex Coronary Disease

**6:00 am REGISTRATION / CONTINENTAL BREAKFAST**

*JW Marriott Resort, Exhibit Hall  
Grand Saguaro Ballroom*

**6:50 am Welcome & Opening Remarks**

*David G. Rizik, MD*

### Unresolved Issues in Coronary Disease Management I: Biology, Physiology, Imaging

**Moderators:** *Donald E. Cutlip, MD, James B. Hermiller, MD*

**7:00 am Cardiovascular Device Healing Knows No Boundaries: Uniformity Across Stents, Valves and Structural Platforms**

*Robert S. Schwartz, MD*

**7:15 am The Big 10: Key Trials from 2011-2012**

*Donald E. Cutlip, MD*

**7:30 am Navigating the Current DES Landscape in 2012**

*James B. Hermiller, MD*

**7:45 am Cath Lab Basics: Utilizing FFR to Guide Decision Making**

*Morton J. Kern, MD*

**8:00 am Optimizing Complex PCI Outcomes with Intravascular Ultrasound**

*John McB. Hodgson, MD*

**8:15 am How to Incorporate OCT in Your Cath Lab**

*Marco Costa, MD*

### Live Cases #1 and #2

**8:30 am Satellite from Scottsdale Healthcare Hospital & Duke University Medical Center**

**Lab:** *David G. Rizik, MD, Sunil V. Rao, MD, Mark Reisman, MD*

**Panelists:** *David A. Cox, MD, Timothy D. Henry, MD, John McB. Hodgson, MD, Morton J. Kern, MD*

**9:30 am BREAK / VISIT EXHIBITS**

### Unresolved Issues in Coronary Disease Management II: Complex Lesion Subsets

**Moderators:** *Ted Feldman, MD, Gregg W. Stone, MD*

**9:45 am Multivessel Disease:**

**Long Term Follow Up From the Syntax Trial**

*Ted Feldman, MD*

**10:00 am Left Main Coronary Artery Disease: Where Do We Go From Here?**

*Gregg W. Stone, MD*

**10:15 am Treating Left Main Disease:**

**Not Just Another Bifurcation Lesion**

*Amish J. Desai, MD*

**10:30 am DEBATE:**

**Does a Radial First Approach Limit Your Ability to Tackle the Real Complex Stuff?**

**Yes, It Does.....***David A. Cox, MD*

**Oh No It Doesn't.....***Robert J. Applegate, MD*

**11:00 am Tips and Tricks for Treating CTO's**

*Ashish Pershad, MD*

**11:15 am Pivotal Bifurcation Trials:**

**Nordic-BBC Meta-Analysis, DK Crush**

*Michael A. Kutcher, MD*

**11:30 am Treating Complex Bifurcations:**

**New Tools of the Trade**

*David G. Rizik, MD*

### Live Case #3

**11:45 am Complex CTO Lesion Satellite from PeaceHealth St. Joseph's Medical Center, Bellingham, WA**

**Lab:** *William L. Lombardi, MD*

**Panelists:** *Douglas E. Drachman, MD, Ted Feldman, MD, James B. Hermiller, MD, Gregg W. Stone, MD*

**12:45 pm LUNCH / VISIT EXHIBITS**

### Impella Hemodynamic Support Symposium

**Thursday, February 16th**

**Supported by ABIOMED**

Abiomed is offering an afternoon symposium on the Impella 2.5 which will include an overview of the science of hemodynamic support; tips, tricks, and expanding applications; updates from USpella and Protect II; and case reviews.

**Moderator:** *David G. Rizik, MD*

**1:45 pm Form Meets Function: The Science and Design of the Impella Device**

*Morton J. Kern, MD*

**2:00 pm Fast and Efficient: Tips and Tricks to Impella Deployment**

*James B. Hermiller, MD*

**2:15 pm Clinical Science Update: Review of the Most Recent Data**

*George W. Vetrovec, MD*

**2:30 pm Straight Forward Impella Case**

*Douglas E. Drachman, MD*

**2:45 pm Complex Impella Case**

*Amish J. Desai, MD*

**3:00 pm Concluding Remarks / Wine & Cheese Reception in Exhibit Hall**

*Not certified for credit*

*Registration times, breaks, meals and exhibits are not certified for credit*

# General Session Agenda

## Friday, February 17th

### Acute MI, ACS and Future Directions of Interventional Cardiology

**6:00 am REGISTRATION / CONTINENTAL BREAKFAST**

*JW Marriott Resort, Exhibit Hall  
Grand Saguario Ballroom*

**6:50 am Opening Remarks**

#### Acute Myocardial Infarction & Acute Coronary Syndrome

**Moderators:** *Mark Reisman, MD, Thomas D. Stuckey, MD*

**7:00 am Thrombectomy in AMI:**

**Always, Never, Sometimes**  
*Bruce R. Brodie, MD*

**7:15 am Hemodynamic Support in AMI**

*David E. Kandzari, MD*

**7:30 am AMI and Multivessel Disease:**

**Staged vs. “One-Time” Multivessel PCI**  
*David A. Cox, MD*

**7:45 am Optional Reperfusion Therapy for Patients with Expected Delays**

*Timothy D. Henry, MD*

**8:00 am The STEMI A La Carte Menu:**

**Choosing the Right Stent, Thienopyridine and Access Site**  
*Thomas D. Stuckey, MD*

#### Live Case # 4 and #5

**8:15 am Satellite from Scottsdale Healthcare Hospital & Duke University Medical Center**

**Lab:** *James B. Hermiller, MD, Maulik Shah, MD, Sunil V. Rao, MD*

**Panelists:** *Bruce R. Brodie, MD, David A. Cox, MD, Michael A. Kutcher, MD, Gregg W. Stone, MD, James P. Zidar, MD*

**9:15 am BREAK / VISIT EXHIBITS**

### The Next Interventional Revolution

**Moderators:** *David E. Kandzari, MD, Christopher J. White, MD*

**9:30 am MARQUIS LECTURE**

**Treatment of Acute Myocardial Infarction: Yesterday, Today and Tomorrow**  
*Gregg W. Stone, MD*

**10:15 am Structural Heart Disease and Lessons From Stent Success, and Failures**

*Robert S. Schwartz, MD*

**10:30 am TAVI**

*Samir Kapadia, MD*

**10:45 am Mitral Clip**

*Ted Feldman, MD*

**11:00 am LAA Closure**

*Steven J. Yakubov, MD*

**11:15 am Therapeutic Strategies for the No-Option Patients: Treatment for Refractory Angina in 2012**

*Timothy D. Henry, MD*

**11:30 am Bioabsorbable Scaffolds**

*David G. Rizik, MD*

**11:45 am Drug Eluting Balloons**

*William A. Gray, MD*

**12:00 pm LUNCH / VISIT EXHIBITS**

**12:45 pm Carotid Intervention**

*Christopher J. White, MD*

**1:00 pm Renal Denervation**

*James P. Zidar, MD*

**1:15 pm When Your Body Tells You, “It’s a Heart Attack!”**

*George W. Vetrovec, MD*

**1:30 pm How Will We Reduce Our Radiation Exposure in the Future?**

*James A. Goldstein, MD*

### Afternoon Imaging Symposium

**Moderators:** *Morton J. Kern, MD, Robert S. Schwartz, MD*

**1:45 pm Imaging and Left Main PCI: Achieving Doable Long-Term Results**

*David E. Kandzari, MD*

**2:00 pm CTA: Who, Why, When**

*John McB. Hodgson, MD*

**2:15 pm Coronary Calcium and Its Clinical Implications**

*Michael Gotway, MD*

**2:30 pm Lessons for the Interventionalist from Plaque Visualization: Location, Density, Implications for Stenting**

*Robert S. Schwartz, MD*

**2:45 pm Plaque Characterization: Invasive and Noninvasive Detection of Vulnerable Plaque**

*James A. Goldstein, MD*

**3:00 pm 3D CT Based FFR: Noninvasive FFR Assessment and Correlation with Invasive Data**

*Robert S. Schwartz, MD*

**3:15 pm CTA: Roadmap for the Structural Interventionalist**

*Ted Feldman, MD*

**3:30 pm CTA and MRA: Critical Tools in PAD Diagnosis and Intervention**

*Douglas E. Drachman, MD*

**3:45 pm Structural Heart Disease Assessment Using MRI**

*John Lesser, MD*

**4:00 pm Day 2 Concluding Remarks**

*Registration times, breaks, meals, and exhibits are not certified for CME credit*

# General Session Agenda

## Saturday, February 18th

### A Practical “How To” Session for the Interventionalist

**Moderators:** James B. Hermiller, MD, Mark Reisman, MD

**8:00 am CONTINENTAL BREAKFAST**  
JW Marriott Resort, Exhibit Hall  
Grand Saguaro Ballroom

#### How To Do TAVR

- 8:30 am Patient Evaluation**  
Robert J. Applegate, MD
- 8:45 am Procedural Essentials**  
James B. Hermiller, MD
- 9:00 am Access Considerations**  
Steven J. Yakubov, MD
- 9:15 am Straight Forward TAVR Case Example**  
Mark Reisman, MD
- 9:30 am Complex TAVR Case Example**  
Ted Feldman, MD
- 9:45 am TAVR Complications**  
Samir Kapadia, MD
- 10:00 am TAVR Panel Discussion with Q&A**
- 10:15 am BREAK / VISIT EXHIBITS**

#### CTO's, Bifurcations and Crossing the Atrial Septum

- 10:30 am How To Do Bifurcations: The ABC's**  
William A. Gray, MD
- 10:45 am How To Do CTO's**  
David E. Kandzari, MD
- 11:00 am How To Best Treat In-Stent Restenosis**  
Michael A. Kutcher, MD
- 11:15 am How To Use Radial Access: Best Practice**  
Robert J. Applegate, MD
- 11:30 am How To Do Transeptal Catheterizations**  
James B. Hermiller, MD
- 11:45 am How To Perform LAA Occlusion**  
Amish J. Desai, MD
- 12:00 pm How To Avoid and Treat the Nightmare Complications**  
Douglas E. Drachman, MD
- 12:15 pm Concluding Remarks / Meeting Adjournment**

### Interventional Cardiology Fellows Course

**Critical Topics**  
in Interventional Cardiology  
Supported by Volcano

**February 16-18, 2012**

The 2012 SIF Interventional Cardiology Fellows Course will feature an intimate setting moderated by top practicing interventional cardiologists in the United States. Relevant and in-depth discussions of today and tomorrow's critical topics facing interventional cardiologists will be presented. Challenging discussions and question and answer sessions will include:

- IVUS and FFR
- STEMI
- Complex Coronary Lesions
- Femoral and Radial Access and Closure
- Unprotected Left Main and Hemodynamic Support
- Structural Heart Disease

The program is intended primarily for final year Interventional Cardiology Fellows. Registration is limited and will be confirmed on a first-come, first-served basis. Hotel accommodations at the JW Marriott Resort for the nights of Wednesday, February 15th, Thursday, February 16th and Friday, February 17th will be covered along with a round-trip airline ticket.

Attendance at the SIF symposium is required, full registration fees are waived.

For more information and to register, please visit

[www.SIF2012.com](http://www.SIF2012.com)

*All sessions presented on Saturday are not certified for credit*

# 2012 Symposium Supporters

The Scottsdale Interventional Forum is being funded in part through educational grants and exhibit fees from medical device and pharmaceutical industries. We appreciate their participation in this conference and their support of continuing medical education. A complete list of the 2012 Supporters and appropriate acknowledgement will be given to all supporters in the course syllabus. The following is a list of the 2011 SIF Supporters.

THE MEDICINES COMPANY®

# Hotel Accommodations

## JW Marriott Desert Ridge Resort & Spa

5350 East Marriott Drive  
Phoenix, Arizona 85054  
PH: 480.293-5000

\$219.00 / night

[www.jwdesertridgeresort.com](http://www.jwdesertridgeresort.com)

JW Marriott Desert Ridge Resort & Spa is a luxury hotel that provides unparalleled service, endless recreation, exquisite dining, championship golf and a pampering spa. This AAA Four Diamond Award Resort offers luxurious accommodations that include views from your balcony or patio, unique furnishings and signature Revive Collection bedding that seamlessly combine to produce a welcome retreat in the Sonoran Desert.

Bring The Family! The JW Marriott Desert Ridge has an array of activities to entice your whole family! With more than four acres of unique pools and waterways, whirlpools and a spectacular Lazy River, cooling off has never been so easy! Take advantage of The Family Escape, where children will think they are at summer camp every day. Whether you like to cozy up on the plush furniture indoors or soak up the sun on the sports lawn, The Family Escape offers a variety of options for everyone. The staff is there to assist you with the cutting edge technology, coordinate a family excursion or step in as your fourth player in a game. Some of the amenities the Escape offers include: exclusive access to the Family Lounge, Apple iPads with a complete library of books for all ages, Miniature Snack Bar, Outdoor Sports Lawn, Mac computers with internet access, and many more engaging activities.

A block of rooms has been reserved at the JW Marriott Desert Ridge Resort & Spa for attendees of the 2012 SIF Symposium at a special reduced rate of \$219.00 single or double occupancy per night, plus tax. To receive the discounted room rate, reservations must be confirmed by Wednesday, January 25, 2012. After that date, reservations will be subject to space and rate availability. Note: This special reduced conference rate will be honored 2 days prior and 2 days after the symposium over President's Day Weekend, based on availability.

The JW Marriott also offers an optional \$25.00 per day Resort Fee. Included when paying the \$25.00 Resort Fee is complimentary internet service, complimentary domestic local, long distance and 800 calls, free access to the driving range, tennis center and fitness center, valet parking charged at \$16 instead of \$26, complimentary parking in the self-parking lot, complimentary appetizer or dessert when an entrée is purchased at the Ristorante Tuscany or Meritage Steakhouse Restaurants and kids ages 12 and under eat FREE at the Blue Sage restaurant.

Contact the Reservations Department directly at 480.293.5000 to request accommodations. When making reservations, please be sure to mention that you will be attending the **Scottsdale Healthcare, Scottsdale Interventional Forum** in order to obtain the discounted group rate.

### ONLINE RESERVATIONS

To book your room online, visit [www.SIF2012.com](http://www.SIF2012.com)

## Destination *Arizona*

### GOLF

#### Wildfire Golf Club

5350 E. Marriott Drive  
Phoenix, AZ 85054  
Phone: (480) 473-0205

Situated in the rugged Sonoran Desert, the Wildfire Golf Club features two picturesque 18-hole courses designed by two of golf's greatest legends, Arnold Palmer and Nick Faldo.

The Palmer Signature Course offers scenic and expansive fairways allowing the ball to remain in play even on an errant shot. The Faldo Championship Course features generous fairways, large bent grass greens and tee boxes. Surrounding both courses are the majestic McDowell Mountains and century-old saguaro cacti, providing a spectacular setting for golfers. Voted World's Best Golf Resorts for Family Trips and Best Resort Course in the Southwest by Travel & Leisure Golf Magazine, voted Best Courses You Can Play by Golfweek Magazine, and voted America's Top Golf Courses by Zagat, come see what they're all raving about! Wildfire Golf Club is happy to offer attendees of the 2012 SIF Symposium a 10% discount off of the posted rate. In order to book your tee time, please contact the golf club directly and ask for the Scottsdale Interventional Forum discount, or contact Gaffney Events for assistance at 425.844.9019. Tee times can be made 120 days in advance.

### SHOPPING

#### Desert Ridge Marketplace

21001 N. Tatum Boulevard  
Phoenix, AZ 85050  
[www.shopdesertridge.com](http://www.shopdesertridge.com)

Arizona's premier shopping, dining and entertainment destination, Desert Ridge Marketplace delivers the ultimate shopping experience in a distinctive outdoor setting. Immerse your shopping senses in a unique blend of specialty retailers, restaurants and entertainment venues spread over 110 acres. The center's 1.2 million square feet of retail space, home to over 110 retailers and restaurants, bursts with color, energy and fun, creating a one-of-a-kind lifestyle destination you'll want to come back to again and again. Desert Ridge Marketplace is approximately a 10-15-minute walk across the street from the JW Marriott Resort. Trans-Style car service, located onsite at the hotel, will provide transportation at \$5.00 per car each way.

### HIKING

#### Camelback Mountain

5700 N. Echo Canyon Parkway  
Scottsdale, AZ

Camelback Mountain is one of the most popular Arizona hiking areas. It is a well-known landmark and the highest point in Phoenix. Hikers, rock climbers, tourists, nature lovers and fitness buffs brave its sheer red sandstone cliffs and steep trails for an unparalleled, 360 degree view of the Phoenix/Scottsdale area and the mountains beyond. Climbing roughly 1,200 feet in just over one mile, it is an extremely strenuous hike by any standards. While hiking to the summit of Camelback Mountain, you will experience the dramatic rock formations and a variety of desert plants and animals.

## Registration Information

The Early Registration fee, received on or before January 16, 2012, for this CME activity is \$495.00 for Physicians, and a reduced registration fee of \$250.00 is available for Residents, Nurses, Technicians and Physician Assistants. After January 16th, the registration fee for Physicians is \$595.00 and \$350.00 for Residents, Nurses, Technicians and Physician Assistants. The early registration fee for Industry Personnel is \$350.00. The early registration fee for the One-Day Nurse / Technologist Symposium Only is \$75.00.

### Fellows registration fees are WAIVED.

The full registration fee includes attendance at Wednesday, Thursday, Friday and Saturday Sessions, continental breakfasts, refreshment breaks, lunches and the Thursday afternoon Wine & Cheese Reception.

To register, please complete and mail or fax the attached registration form to Gaffney Events, or visit our symposium website at [www.SIF2012.com](http://www.SIF2012.com) to register online. If you have questions regarding the program, please contact the symposium coordinator, Gaffney Events at 425.844.9019, or [annamarie@gaffneyevents.com](mailto:annamarie@gaffneyevents.com).

### CANCELLATIONS

A full refund will be given provided that written notification of your intent to cancel is received at least three weeks prior to the opening date of the symposium. A processing fee of \$75.00 will be charged for all cancellations received after this date. The cost of the meal functions will also be deducted from the refund unless cancellation is received 48 hours in advance of the program. Fees will not be refunded for no-shows.
